

Usability Test: **Community App**
Fall 2025
The Easy Team(Team E)

Introduction

Thank you for agreeing to participate in this usability test for our CommUnity App.

The goal of this test is to see how real users interact with our app, which will help us make it easier and more enjoyable to use.

We are testing the app, not you. There's no "right" or "wrong" way to do things. We want to hear exactly what you think while using the app. Be honest — your feedback will help us fix any problems.

During the test, we'll ask you to complete several tasks and think out loud as you do them. Tell us what you're trying to do, what you expect to happen, and anything confusing. If you have questions, feel free to ask, but we won't give instructions on how to complete tasks unless you're completely stuck.

Your comments will be recorded for research purposes but will remain confidential. If at any point you want to stop, just let us know.

Background Questions

Before we start, we'd like to ask a few questions:

Have you used community or social apps before? If so, which ones?

How often do you interact with communities online?

Have you seen or used the Community App before today?

Before we begin, do you have any questions for me?
